The Netherlands

Data: September 22, 2011

Pursuant to 47 CFR Part0, section 0.459, we herewith submit a request for non-disclosure of the following exhibits, related to this application for FCC: VQK-T01D

The contents of the exhibits as listed below under 1-4 may not be disclosure to any other party than Company name and must be temporary withheld from public inspection under 5 U.S.C.552 (b)(4) and must be temporary kept confidential.

1. External photographs;
2. Internal photographs;
3. User manual;
4. Test-setup photographs;

**The short-term confidentiality is scheduled to terminate after 60 days from the date of the Grant.**

The reason for this request for short-term confidentiality is that the information contained in the exhibits as listed above has been classified as being temporary company confidential (with reference to 47 CFR Part 0, section 0.467(d)). Disclosure of any portion of this information to other parties prior to the date of the actual marketing of the device would cause substantial competitive harm.

I, as the applicant, understand and have taken notice of the following.

- (a) The maximum period for the short-term confidentiality is 180days, counting from the date of issue of the Grant
- (b) The applicant shall inform the TCB about the date on which the device will actually marketed. Such a notification must be received by the TCB before the date of actual marketing. The short-term confidentiality will then terminate before or on the date of the actual marketing of the device;
- (c) If no request from the applicant is received by the TCB for releasing the short-term confidentiality, it will terminate automatically after 180days, counting from the date of issue of the Grant;

Yours sincerely,

Yoshihiko Taki  
FUJITSU LIMITED
