INSTRUCTION MANUAL

'07.X

DoCoMo W-CDMA, GSM/GPRS System
Thank you for selecting FOMA F884i mobile terminal.

Both before and during use of your FOMA mobile terminal, be sure to thoroughly read this manual and instruction manuals that come with other optional devices to ensure you are able to correctly use your FOMA mobile terminal. For more information, you may contact us as mentioned on the back of this manual.
Treated with care, your FOMA F884i mobile terminal will be your able partner.

Before using your FOMA terminal

● Because your FOMA terminal uses radio waves, it may not function in locations where it is difficult for radio waves to penetrate, such as tunnels, underground passages and some buildings, in areas where radio wave signals are weak, or out of service area. Even when you are high up in a tall building or condominium and nothing blocks your view outside, your FOMA terminal may not be able to receive or transmit signals. Also, communication may be interrupted even when the signal meter on your FOMA terminal indicates there is a strong signal and you are not moving (traveling).
● Use your FOMA terminal in a way that does not disturb others in public spaces, crowded locations or quiet places.
● Because your FOMA terminal uses radio waves to communicate, it is possible that a third party may attempt to tap your calls. However, the W-CDMA or GSM/GPRS system automatically applies a confidential communication function to all calls, so even if a third party could somehow tap a call, they only hear noise.
● Your FOMA terminal encodes voice communication as digital data. When you are operating your FOMA terminal while moving to a location subject to weaker radio wave signals, the transmitted digital data may not be correctly decoded and as a result the decoded voice may differ somewhat from the actual voice.
● Maintain a separate record of the data (Phonebook, Schedule, Recorded messages, Voice memos) you registered in your FOMA terminal. If the data should be deleted, DoCoMo assumes no responsibility for the loss of any data.
● You are recommended to save important data to microSD memory card. Using DoCoMo keitai datalink, you can transfer and save phonebook, mail, schedule and other data to a PC.
● The user hereby agrees that the user shall be solely responsible for the result of the use of SSL. Neither DoCoMo nor the certifier as listed herein makes any representation and warranty as for the security in the use of SSL. If the data should be erased, DoCoMo assumes no responsibility for the loss of any data.
　Certifier :　VeriSign Japan K.K., Cybertrust Japan Co., Ltd., GlobalSign K.K.
　　　　　　　RSA Security Japan Ltd., SECOM Trust Systems Co., Ltd.
● This FOMA terminal is applicable to FOMA Plus-Area and FOMA HIGH-SPEED Area.
● This FOMA terminal is unavailable outside FOMA network provided by DoCoMo or DoCoMo's roaming service areas.
● FOMA F884i does not support bilingual function.

When using FOMA terminal for the first time

When you are going to use FOMA terminal for the first time, please read this manual in the order below. You will be able to understand an outline of the preparation for using FOMA terminal and basic operations.

1. Check "Precautions"→p.10
2. Attach and charge the battery pack→p.38, p.39
3. Turn the power ON, make initial settings and check your phone number→p.45, p.51
4. Check the functions of terminal keys→p.22
5. Check the definitions of icons appearing on the display→p.25
6. Check how to use the menus→p.30
7. Check how to make and receive calls→p.56, p.69

Latest information about this manual can be downloaded from DoCoMo's website.

How to use this manual

Structure and describing ways of this manual are introduced here.

● In this manual, to select a function or an item by pressing [⊡][i✕][⊡][⊡] (Multi-cursor button) is referred to as "select".

● The character input method is described mainly by in-line entry (the method to enter characters directly in the field).→p.404

How to look up in this manual

This manual provides the methods below for necessary function's easy search :

Searching from Easy Search ▶ **p.4**

Using friendly words, search for functions frequently used or convenient functions.

Searching from Menu list ▶ **p.442**

Search from menu displayed on the display of F884i.

Searching from thumb indices ▶ **Front cover**

Use indices on the right of the front cover and turn the pages to search for functions.

See p.2-3 for examples.

Searching from CONTENTS ▶ **p.6**

Use CONTENTS categorized into chapters based on purposes to search for items.

Searching by main functions ▶ **p.8**

Functions can be searched from specific, convenient features of F884i.

Searching from Index ▶ **p.518**

Search from the function name, item keyword or service name.

Using Quick Manual ▶ **p.524**

You can cut out Quick Manual from this manual and carry it with you anywhere.

● In this "Manual for FOMA F884i", "FOMA F884i" mobile terminal is usually referred to as "FOMA terminal". Please be forewarned.
● The screens and illustration shown here are examples. They may differ from those of the actual FOMA terminal.
● To make screens more visible, the screens in this manual are shown with stand-by display set to "表示なし (No icon)".
● This manual uses examples of setting the menu items to "リスト形式 (List format)". When setting to "タイル形式 (Tile display)", some menu item names may differ from those described in this manual, but the keypads for operating them are the same.
● Press [⌐] to return to stand-by display during/after operation.

Easy Search

Use this function when you want to look up a frequently-used function or a convenient fraction by a simple word.

Main functions of FOMA F884i

FOMA is a DoCoMo's service name based on W-CDMA recognized as one of the global standards for 3rd generation wireless communication (IMT-2000).

Major characteristics of F884i

i-mode mail and Easy Deco-mail
→p.221, p.223

In addition to message text, you can attach up to 10 files (images, ToruCa, etc.) or files of up to 2 Mbytes in total to a message. Moreover, because Deco-mail is available, you can receive colorful and joyful mails or send decorated mails.

International Roaming →p.428

While staying overseas, you can use the same FOMA terminal, phone number and mail address as those used in Japan. You can use voice/videophone calls, i-mode, i-mode mail, SMS and network services.

GPS Function →p.300

Using radio wave emitted from GPS satellite, Location information of the FOMA terminal can be obtained. Using the information, you can search the map of your current location or ambient information, and send mails by attaching your current location. And, you can notify the other party of your location information by voice or mail, or you can search the route to the destination.

1Seg →p.320

You can receive Digital Terrestrial TV broadcasting for mobile object (1Seg). You can easily enjoy participating in quiz program or TV shopping, etc., by sending and receiving information to/from TV broadcasting companies (stations). Convenient functions such as subtitle display with large font, watching reservation, and recording or recording reservation of video are available.

Osaifu-Keitai/ToruCa
→p.276, p.288, p.290

By downloading Osaifu-Keitai compatible i-αppli, you can deposit electronic money from the site into the IC card in the FOMA terminal, and check the balances and payment records. Moreover, i-αppli of "DCMX" (DoCoMo's credit service) is preinstalled. And, compatible with "iC お引っこしサービス (iC transfer service)" that you can easily transfer data in IC card when replacing the FOMA terminal by changing of the model etc. ToruCa is an electronic card that can be downloaded from the IC card reader, site, etc. and can be easily exchanged using mail or infrared communication.

The unique convenient functions of F884i

Optic guide and the guide function
→p.27, p.69, p.162

When a voice call or a videophone call comes in, keypads flash in bright colors to notify you of the way to answer the call. When recording a movie or checking the settings, you can see which button to press. For the menu or functions name that "Guide" appears below the display, you can read the explanation.

Voice reading →p.146

Read aloud the explanation of operation currently shown on the display, or the contents of a received mail or a site. With the FOMA terminal folded, if you press and hold on the right side for 1 second or more, the FOMA terminal lets you know the current time by voice. You can change the voice quality or speed of reading to set the reading operation to be easy to hear.

One-touch dial →p.107

Only by pressing the numeric keypad (One-touch dial button) above the multi-cursor button, you can easily make a call to or create a mail for a registered party. You can also set a ring alert or an incoming call image dedicated to the registered party.

Simple mail and voice message
→p.212, p.224

You can handily create mails by operating according to the instructions shown on the display. It is also easy to attach photograph or movie. And, you can instantly record what you want to tell and attach it to a mail and send it.

Voice recognition →p.143, p.145

You can handily call a phonebook or function by voice-registering the name or word.

Various security settings

Omakase Lock[*]   →p.129

Omakase Lock is a service that locks FOMA terminal on request from the subscriber. Even if the holder of FOMA terminal is different from its subscriber, the terminal may be locked on request from the subscriber.

* This is charged service. If you request unlocking at the same time as service interruption or during interruption, no charges occur. Even in Omakase Lock, if Request permit/deny is "ON", the FOMA terminal responds to location request of GPS function. For precautions and detailed procedure for using this service, see "Mobile Phone User's Guide [Procedures and After-Sales Service]".

Data Security Service[*]   →p.139

This service allows you to store phonebook, mails and/or images saved in FOMA terminal to Data Center and, in case of misplacement, etc. of FOMA terminal, restore the data to FOMA terminal. In addition, you can edit or manage data stored in Date Center from a PC and reflect the edited data to FOMA terminal.

* This is an optional service to be charged requiring subscription. For precautions and detailed procedure for using this service, see "Mobile Phone User's Guide [i-mode]".

Other covenant functions

Swing display (YOKO-MOTION)→p.24

By rotating the display 90 degrees to the right or left, you can use the horizontal screen to watch 1Seg or shoot and play still images/movies. And, some functions and i-αppli are applicable to Wide display that can display fully on the horizontal screen.

Barcode reader and magnifier
→p.170

By using the camera's closeup function, you can use the FOMA terminal as a barcode reader or a magnifier.
By using the barcode reader, you can collect information.

Voice clear and Voice slowing
→p.59

"Voice slowing" that adjusts the speed of other party's voice, and "Voice clear" that makes the other party's voice clear and adjusts the volume even in noise. Supports 2 functions that make other party's voice easy to hear for voice calls.

Supporting "microSD memory card"
→p.366, p.482

You cam make back-up copy of such data as images, melodies, phonebooks or mails in the FOMA terminal.
By saving a movie created with external device in microSD memory card, you can play it with the FOMA terminal (it may not be played under some conditions).

Infrared communication/iC transmission
→p.369

You can send/receive data to/from other FOMA terminals, mobile phones or PCs equipped with the infrared communication function. And, by iC transmission, you can send/receive data by making FeliCa marks of the FOMA terminals of the sender close to each other.

One-touch buzzer   →p.388

By sounding a large-volume buzzer pressing the button in emergency situation, you can notify the people around you of your current location. And, when you sound the one-touch buzzer, you can automatically make a voice call or use GPS function to notify of your current location.

Videophone call   →p.56

Phone conversations can be made between FOMA terminals supporting videophone call while looking at the other party's image displayed on the screen. By using speakerphone function, you can talk with the FOMA terminal placed.

Pedometer   →p.392

By using the FOMA terminal as a pedometer, you can calculate the distance you walked and the calorie you consumed. And, you can automatically send the information of the pedometer to the same receiver at the same time every day (Pedometer automatic sending mail).

abundant network services

*1 Subscription is required.   *2 Subscription is not required.

Precautions (ALWAYS FOLLOW THESE DIRECTIONS)

●Before using your FOMA terminal, or when necessary, read the precautions below to ensure safe use and handling. After reading this manual, keep it carefully.
●These precautions are intended to protect you and others around you. Read and follow them carefully to avoid injury, damage to the product or damage to property.

■ **The signs below differentiate between the levels of danger that can occur if the product is not used within the specified guidelines :**

⚠ **DANGER**	This sign denotes that death or serious injury may directly result from improper use.
⚠ **WARNING**	This sign denotes that death or serious injury may result from improper use.
⚠ **CAUTION**	This sign denotes that bodily injury or damage to property may result from improper use.

■ **The symbols below show specific directions :**

Don't	This symbol denotes that the action is prohibited.
No disassembly	This symbol denotes that disassembling the phone or its components is not allowed.
No wet hands	This symbol denotes that using the phone or its components with wet hands is not allowed.
No liquids	This symbol denotes that using the phone or its components in a bathroom or other highly humid area is not allowed.

Do	This symbol denotes that an instruction must be obeyed at all times.
Unplug	This symbol denotes that the equipment should be unplugged.

■ **Precautions contain the description below :**

Handling FOMA terminal, battery pack, adapter (including battery charger) and UIM (Common)

⚠ DANGER

Don't
Do not use, store, or leave the equipment in hot areas such as near flames or in areas under strong direct sunlight such as inside a vehicle.
May cause the equipment to be deformed or malfunction, and battery pack to leak, heat, burst or ignite, and the capability or life to be reduced or shortened. Overheating on parts of the case may cause burns or injuries.

No disassembly
Do not disassemble or remodel the equipment. Do not solder items onto the equipment.
May cause fire, injuries, electric shock, or malfunction. It may also cause the battery pack to leak, heat, burst or ignite.

No liquids
Do not let the equipment get wet.
Contact with water or other liquids can cause heating, electric shock, fire, malfunctions or injuries. Take care of the place for use and treatment of the equipment.

Do
Use equipment specified by the DoCoMo Group companies with your FOMA terminal.
Use of equipment not specified by DoCoMo can cause the FOMA terminal, battery pack and other parts to leak, heat, burst, catch fire or malfunction.
Battery Pack F11
Desktop Holder F25
FOMA AC Adapter 01/02
FOMA DC Adapter 01/02
FOMA Dry Battery Adapter 01
FOMA USB Cable with Charge Function 01
FOMA AC Adapter 01 for Global use
FOMA Portable Charging Adapter 01
* Contact a sales outlet such as DoCoMo Shop for information on other compatible products.

⚠ WARNING

Don't

Do not put the battery pack, FOMA terminal, adapter (including battery charger) or UIM in microwave ovens or other heating appliances or high-pressure containers.
May cause the battery pack to leak, heat, burst or ignite, the FOMA terminal or adapter (including battery charger) to heat, smoke, ignite, or damage circuits.

Don't

Do not throw the equipment or give hard shock to it.
May cause the battery pack to leak, heat, burst or ignite, and the equipment to malfunction or catch fire.

Don't

Keep conductive materials (metal pieces, pencil lead, etc.) from coming in contact with the charger terminal or external connecting jack. Do not put those materials inside the terminal.
May be subject to electrical short and could cause fire or malfunction.

Do

**Turn the FOMA terminal OFF before entering a place such as a gas station where flammable gases are generated.
Do not charge the battery. The gas may catch fire.**
When using Osaifu-keitai in a place as a gas station, turn OFF the terminal before using it.
(When IC card lock is activated, deactivate it before turning OFF the terminal.)

Do

If the equipment starts giving off a strange smell, overheats, becomes discolored or deformed during use, charging or in storage, immediately perform the following operations :
1. **Remove the power plug from the wall outlet or cigarette lighter socket.**
2. **Turn the FOMA terminal OFF.**
3. **Remove the battery pack from the FOMA terminal.**
May cause the equipment to heat, burst or ignite or the battery pack to leak if you keep using the equipment.

⚠ CAUTION

Don't

Do not leave the equipment on unstable or sloping surfaces.
May cause malfunction or injuries.

Don't

Do not store the equipment in extremely humid, dusty or hot areas.
May cause malfunction.

Do

Children using the equipment should be instructed in proper operation by an adult. Do not allow them to use the equipment without adult supervision.
May cause injuries.

Do

Store the equipment out of reach of small children.
The equipment can be accidentally swallowed or cause injuries.

Do

Be careful especially when using the FOMA terminal connected to the adapter (including battery charger) continuously for a long time.
If you execute i-αppli, use videophone call or watch 1Seg while charging the battery pack, the FOMA terminal, battery pack and adapter (including battery charger) may become hot.
Directly touching a hot part for a long time, you may have redness, itching or rash on your skin, or it may result in low-temperature burns depending on your constitution and/or health condition.

Handling FOMA terminal

⚠ WARNING

Don't

Do not direct the infrared data port toward your eye and transmit signals.
May affect your eyes. Faulty operation could result from directing the infrared data port toward other infrared equipment and transmitting signals.

Don't

Do not put the FOMA terminal in the place such as the dashboard near the air-bag, where the influence of air-bag explosion is expected.
When the air-bag deploys, the FOMA terminal may hit yourself or others and could cause injury, equipment malfunction or damage.

Don't

When you use medical electrical equipment, do not keep the terminal in your chest pocket or inside pocket.
Using your FOMA terminal near medical electronic equipment could cause equipment failure.

Do not put foreign objects such as liquid like water, metal pieces or burnable things into the UIM slot or microSD memory card slot.

Don't

May cause fire, electric shock or equipment failure.

Do not turn on the light aiming directly at the driver of the car, etc.

Don't

It hinders driving, and may result in an accident.

Turn the FOMA terminal OFF in areas where use is prohibited, such as in airplanes and hospitals.

Do

Use in these areas can cause electronic medical equipment and electronic equipment to malfunction or fail.
If the function which automatically turns on the power is set, cancel the setting before turning the power off.
When using the phone in a medical facility, be sure to observe the regulations of the facility.
If you do prohibited act such as using the phone in an airplane, you may be punished according to law.

When you talk by setting handsfree, always keep the FOMA terminal away from your ear.
And, when connecting the earphone/microphone to the FOMA terminal and play a game or music, adjust the volume moderately.

Do

Too loud volume may cause a hearing loss. And, if you cannot hear the sound around you clearly, it may cause an accident.

If you have weak heart, be careful when setting the Vibrate alert (vibration) or alert volume setting.

Do

Could affect heart function.

If it starts thunder while using the phone outside, retract antenna and turn the power OFF immediately, and move to a safe location.

Do

May be subject to lightning strike and could cause electric shock.

Turn the FOMA terminal OFF near high-precision electronic control equipment or electronic equipment using low-power signals.

Do

Using the phone near this type of equipment can cause the equipment to fail or malfunction.
* Examples of electronic equipment to avoid : Hearing aids, implanted pacemakers or defibrillators, other electrical medical equipment, fire alarms, automatic doors and other automatic control equipment. Users wearing implanted pacemakers or defibrillators or other electrical medical equipment should check with the manufacturer or sales outlet about the effect of radio frequencies on the equipment.

When the display or camera lens is accidentally broken, be careful of broken glass or exposed internal parts of the FOMA terminal.

Do

Surfaces of display and camera lens are made of plastic panels and they are structured for the glass not to scatter, however, if you mistakenly touch broken or exposed parts, you may be injured.

When sounding one-touch buzzer, always keep the FOMA terminal away from your ear.

Do

It may cause hearing loss.

⚠ CAUTION

Do not swing the FOMA terminal by its antenna or strap.

Don't

May cause the terminal damage or failure, or injury to yourself or others.

Do not use the FOMA terminal in crowded places.

Don't

The antenna may hit other people, causing accidents such as injuries.

Do not use the FOMA terminal with its antenna damaged.

Don't

If it touches skin, it may cause accidents such as injuries.

Do not place magnetic disks or cards with magnetic stripes near the FOMA terminal or place inside and fold the terminal.

Don't

Data stored on media such as cash cards, credit cards, telephone cards and floppy disks may be erased if the storage medium is placed near the phone.

⊘ Don't

Do not bring magnetized objects close to the FOMA terminal.
Bringing strong magnetism close may cause a malfunction.

⊘ Don't

If the display part is accidentally damaged and liquid crystal leaks out, do not put the liquid in your mouth, inhale, or make contact with your skin.
If the liquid gets into your eyes or mouth, rinse it with clean water and see a doctor immediately.
And, if the liquid adheres to skin or clothing, use alcohol, etc. to wipe it off, then wash with soap.
May cause loss of sight or skin problems.

⊘ Don't

Do not bring the speaker close to your ear when the ring alert is sounding or you are playing a melody with the FOMA terminal.
It may cause hearing loss.

❗ Do

In rare cases, using the phone in some vehicle models can cause the vehicle's electronic equipment to malfunction or fail.
In this case, do not use the phone because it may hamper safe driving.

❗ Do

Mobile phones can give some users skin problems such as itching, allergic reactions or rashes. If you develop skin problems, stop using the phone immediately, and see a doctor.
The FOMA terminal contains metal in the parts below :

Place of use	Material	Surface finishing
Model name panel on the back	Aluminum	Coating
Metal part of the TV antenna — Front edge, Center part, Lower hinge	Brass	Ni plating
Extendable shaft	Stainless	None
Upper hinge	Stainless	Ni plating, NiPd plating
Charging jack	Copper	Gold plating

❗ Do

When opening or closing FOMA terminal, take care not to have your fingers or strap caught by the terminal.
May cause injuries or damages.

❗ Do

When watching 1Seg, take a certain distance from the display in a fully bright place.
May cause your eyesight to be impaired.

Handling battery pack

■ **Check that the battery type matches the type displayed on the battery pack label :**

Display	Battery type
Li-ion	Li-ion battery

⚠ DANGER

⊘ Don't

Do not connect a wire or other metal objects to the jack. And, do not carry or store the FOMA terminal with objects like a metal necklace.
May cause the battery pack to leak, heat, burst or ignite.

⊘ Don't

Do not try to force the battery pack onto the FOMA terminal if you are having trouble attaching it. Always attach it after checking that it is correctly oriented.
May cause the battery pack to leak, heat, burst or ignite.

⊘ Don't

Do not throw the battery pack into the fire.
May cause the battery pack to leak, heat, burst or ignite.

⊘ Don't

Do not nail the battery pack, hit with a hammer or step on it.
May cause the battery pack to leak, heat, burst or ignite.

❗ Do

If the battery pack's fluid contacts eyes, immediately flush the eyes with clean water and see a doctor right away. Do not rub the eyes.
Battery fluid in the eyes may cause blindness.

⚠ WARNING

⊘ Don't

If the battery pack seems to have abnormalities such as deformation or scratches due to an external impact or falling, stop using it immediately.
May cause the battery pack to leak, heat, burst or ignite, and the equipment to malfunction or catch fire.

Do

If the battery pack does not have a full charge after being charged for the specified time, stop charging it.
May cause the battery pack to leak, heat, burst or ignite.

Do

If the battery pack leaks or gives off a strange smell, immediately remove it from the vicinity of open flames.
The vapors from leaking battery pack fluid may ignite or explode.

Do

Be careful not to let your pet bite the battery pack.
May cause the battery pack to leak, heat, burst or ignite, and the equipment to malfunction or catch fire.

⚠ CAUTION

Don't

Do not discard old battery packs together with other garbage.
May cause fire or destruction of environment. Tape the terminals of old battery packs to insulate them, and then bring them into a sales outlet such as DoCoMo Shop. If your local municipality has a battery recycling program, dispose of them as provided for.

Don't

Do not charge a wet battery pack.
May cause heat generation, ignition or rupture of the battery pack.

Do

If the battery pack's fluid contacts skin or clothes, immediately flush the contacted area thoroughly with clean water.
The fluid may damage the skin.

Handling optional devices (AC adapter/DC adapter/desktop holder/In-car holder)

⚠ WARNING

Don't

Do not use the adapter (including battery charger) cord or power cord if it gets damaged.
May cause electric shock, heat or fire.

Don't

Do not use the AC adapter or desktop holder (battery pack's battery charger) in a bathroom or other highly humid area.
May cause electric shock.

Don't

Always use the DC adapter with a negative-ground vehicle. Do not plug it into a positive-ground vehicle.
May cause fire.

Don't

When it starts to thunder, do not touch the FOMA terminal and adapter (including battery charger).
May be subject to lightning strike and could cause electric shock.

Don't

**Do not short the charger terminal while it is connected to the outlet or cigarette lighter socket.
Do not touch the charger terminal with a part of your body such as your hand or finger.**
May cause fire, malfunction, electric shock or injuries.

Don't

Place battery charger and desktop holder in a stable location during charging. Do not cover or wrap battery charger and desktop holder with a cloth or blanket, etc.
May cause the FOMA terminal to be removed or the optional devices to be heated, resulting in fire or troubles.

Don't

Do not place heavy objects on the adapter (including battery charger) cord or power cord.
May cause electric shock or fire.

No wet hands

Do not touch the adapter (including battery charger) cord or outlet with wet hands.
May cause electric shock.

Do

Only use with the specified power source and voltage.
If incorrect voltage is used, this may cause fire or failure. When using FOMA terminal overseas, use AC Adapter for global use.
AC adapter : AC100V
DC adapter :
　　DC 12V/24V (specific for negative ground vehicle)
AC adapter available overseas :
　　AC 100V-240V (Connect to AC outlet for internal household use)

Do

If the DC adapter's fuse blows, replace it only with the specified fuse.
Using other fuses may cause fire or equipment failure. For the specified fuse, see the instructions that come with the DC adapter.

Do

Wipe off any dust that accumulates on the power plug.
May cause fire.

Do **When you connect the AC adapter to an outlet, make sure not to touch with metal such as metal straps and firmly connect to the outlet.**
May cause electric shock, electrical short or fire.

Do **When disconnecting the adapter (including battery charger) from the outlet or cigarette lighter socket, do not pull the adapter (including battery charger) cord or power cord forcibly; instead hold the plug to disconnect.**
Pulling the cord could damage it, possibly leading to electric shock or fire.

Unplug **Always remove the power plug from the outlet when not using the adapter for an extended period.**
May cause electric shock, fire or malfunction.

Unplug **Immediately remove the power plug from the outlet or cigarette lighter socket if water or other fluids get into the adapter.**
May cause electric shock, smoke or fire.

Unplug **Always remove the power from the cigarette lighter socket when cleaning the equipment.**
May cause electric shock.

Handling UIM

⚠ CAUTION

Do **Be careful of the cut surface when removing the UIM (ICs).**
Hands or fingers may be injured.

Handling mobile phones near electronic medical equipment

■ **These precautions are based on the guidelines produced at the Electromagnetic Compatibility Conference Japan, regarding the protection of electronic medical equipment from radio waves emitted by mobile phone units.**

⚠ WARNING

Do **Obey the following rules inside medical facilities :**
・Do not bring the FOMA terminal into operating rooms (ORs), intensive care units (ICUs) or coronary care units (CCUs).
・Turn the FOMA terminal OFF in hospital wards.
・Turn the FOMA terminal OFF in hospital lobbies and corridors if electrical medical devices could be nearby.
・If the medical facility has specified zones where use or possession of mobile devices is prohibited, obey those instructions.
・If the function to automatically turn on the power is set, cancel the setting before turning the power off.

Do **Turn the FOMA terminal OFF in crowded trains or other public places where pacemaker or defibrillator wearers could be nearby.**
The FOMA terminal's signals may affect the operation of implanted pacemakers or defibrillators, and other devices.

Do **Wearers of implanted pacemakers or defibrillators must carry and use the FOMA terminal at least 22 cm away from the implanted device.**
The FOMA terminal's signals may affect the operation of implanted pacemakers or defibrillators, and other devices.

Do **When electrical medical devices other than implanted pacemakers or defibrillators are in use outside of medical facilities (such as in home care settings), check with the device manufacturer to determine how the device is affected by electrical signals.**
The FOMA terminal's signals may affect the performance of electrical medical devices.

Handling instructions

General

● Keep water away from FOMA terminal.
・FOMA terminal, battery pack, adapter (including battery charger) and UIM are not waterproof. Do not use FOMA terminal in bathrooms or other high-humidity areas, or in the rain. When carrying FOMA terminal in a pocket near your body, sweat may corrode the inner components, causing malfunction. Malfunctions deemed to be caused by water are not covered by the warranty, and may be impossible to repair. Since these conditions are outside the scope of the warranty, a repair, if at all possible, is charged.

● Clean FOMA terminal with a dry soft cloth (such as a cloth for eyeglasses).
・The display of FOMA terminal may have been applied special coating to improve clearness of the color LCD. When cleaning FOMA terminal, rubbing it roughly with a dry cloth can scratch the display. Take care when handling the unit, and clean it with a dry soft cloth (such as a cloth for eyeglasses). Drops of water or dirt left on the display can cause stains or remove the coating.
・If FOMA terminal is wiped with alcohol, paint thinner, benzine or detergent, the printing may disappear or color may fade.

● Clean the jack occasionally with a dry cotton swab.
・If the jack is dirty, the contact may become poor and the power may shut off. A dirty jack can result in poor charging, so clean it with a dry cloth or cotton swab.

● Do not place FOMA terminal near an air-conditioner outlet.
・The rapid change in temperature may cause condensation, causing internal corrosion and malfunction.

● When using, be careful not to subject excessive force to the FOMA terminal or the battery.
・If the FOMA terminal is crammed into a brimming bag or placed in a pocket and sat on, display, internal PCBs or battery pack may be damaged or malfunction.
And, if external devices are plugged into the external connecting jack or earphone/microphone jack, the breakage of the connector or malfunction may result.

● Carefully read the separate instructions that come with the FOMA terminal, adapter (including battery charger) and desktop holder.

● Do not rub or scrape the display with a metal piece, etc.
・It may scratch the display, causing malfunction or damage.

FOMA terminal

● Avoid extreme temperature.
・Use FOMA terminal in an ambient temperature range of between 5 and 35℃, and in a humidity range of between 45 and 85%.

● FOMA terminal may affect general subscriber phones, TVs or radios in use nearby, so use it as far as possible from these appliances.

● Maintain a separate record of the data you register in your FOMA terminal.
・If the data should be deleted, DoCoMo assumes no responsibility for the loss of any data.

● Do not plug external devices into the external connecting jack or the earphone/microphone jack at a slant, or do not pull it forcibly while it is plugged.
・May cause malfunction or damage.

● Do not fold FOMA terminal with the strap held inside.
・May cause malfunction or damage.

● It is normal for FOMA terminal to become warm during use or charging. Continue to use it.

● Do not leave the FOMA terminal with the camera in areas under strong direct sunlight.
・May cause discoloring or burn-in of materials.

● Usually, use FOMA terminal with the earphone/microphone jack cover, external connecting jack cap and microSD memory card slot cover placed.
・Dust and/or water brought into FOMA terminal cause troubles.

● Do not use the FOMA terminal with the back cover removed.
・It may cause the battery to come off, or may cause a malfunction or damage.

● Do not put an extremely thick sticker, etc. on the surface of display or keys.
・May cause malfunction.

● Do not rotate the display with the FOMA terminal folded.
・It may cause the display or around the keys to be scratched, causing a malfunction or damage.

● While using microSD memory card, do not remove microSD memory card or turn OFF the FOMA terminal.
・It may cause data loss or malfunction.

Battery pack

● The battery pack is a consumable part.
・Replace the battery pack if FOMA terminal has extremely short operation time on a full charge, though it may vary by operating conditions. Purchase a new battery pack of the specified type.

● Charge the battery in an area within the proper ambient temperature range (5-35℃).
● Always charge before using it for the first time or after extended disuse.
● The operation time provided by the battery pack varies by the operating environment and battery pack's deterioration.
● The battery pack may swell out as it comes to near the end of its lifetime depending on the usage conditions, but it is not a problem.
● Do not preserve or leave the battery pack as it is empty.
・It may cause the battery pack performance to be degraded or its lifetime to be shortened.

Adapter (including battery charger)

● Charge the battery in an area within the proper ambient temperature range (5-35℃).
● Do not charge the battery in the areas below :
・In areas of excessive humidity, dust or vibrations
・Near general subscriber phones, TVs or radios
● It is normal for the adapter (including battery charger) to become warm while charging. Continue to use it.
● When using the DC adapter for charging, keep the vehicle engine running.
・The vehicle's battery could become flat.
● When using an outlet with a mechanism preventing unplugging, follow the handling instructions for that outlet.
● Do not give hard shock to the adapter (including battery charger). Do not deform the charger terminal.
・May cause malfunction.

UIM

● Do not use excessive force to insert/remove the UIM.
● It is normal for the UIM to become warm during use. Continue to use it.
● Note that DoCoMo assumes no responsibility for malfunctions occurring as the result of inserting and using a UIM with another IC card reader/writer.
● Always keep UIM ICs clean.
● Clean the UIM with a soft, dry cloth (such as a cloth for eyeglasses).
● Maintain a separate record of the data you register on the UIM.
・If the data should be deleted, DoCoMo assumes no responsibility for the loss of any data.
● To preserve the environment, bring the old UIM to a sales outlet such as DoCoMo Shop.

● Avoid extreme temperature.
● Take care not to scratch, touch accidentally or short IC.
・It may cause data loss or malfunction.
● Do not drop the UIM or subject it to shocks.
・May cause malfunction.
● Do not bend the UIM or place heavy objects on it.
・May cause malfunction.
● Do not insert UIM into the FOMA terminal with a label or sticker put on UIM.
・May cause malfunction.

FeliCa reader/writer

● FeliCa reader/writer function of FOMA terminal uses weak waves requiring no licenses for radio stations.
● It uses 13.56 MHz frequency band. When using other reader/writers in your surroundings, keep FOMA terminal away sufficiently from them. Before using the FeliCa reader/writer, confirm that there are no radio stations using the same frequency band nearby.

CAUTION

● Do not use a remodeled FOMA terminal. Using a remodeled terminal violates the Radio Law.
・FOMA terminal is certified according to technical standard conformance of specified wireless equipment based on the Radio Law, and as a proof of it, the "Technical Compliance Mark 🔘 " is depicted on the engraved sticker of FOMA terminal.
If you remodel FOMA terminal by removing its screws, your certification of technical standard conformance becomes invalid.
Do not use FOMA terminal with its certification of technical standard conformance invalid as it violates the Radio Law.
● Be careful when you use the FOMA terminal while driving a car, etc.
・Using a mobile phone while driving is subject to penal regulations. If you inevitably receive a call, tell the caller that you will "call back" by handsfree, then park in a safe place and call back.
● Use FeliCa reader/writer function only in Japan.
・FeliCa reader/writer function of FOMA terminal conforms to Japanese radio standards.
If you use this function overseas, you may be punished.

Intellectual property rights

Copyrights and portrait rights

Except for the case protected by copyright laws such as personal use, use of FOMA terminal to reproduce, alter, or publicly transmit recorded pictures or sounds, or copyrighted text, images, music or software downloaded from websites without the copyright holder's authorization is prohibited.
Note that taking photos or recordings at some demonstrations, performances or exhibitions may be prohibited even when only for personal use.
Avoid taking pictures of others with FOMA terminal without their consent or disclosing recorded pictures of others without their consent to general public through Internet websites, etc., because they may infringe on portrait rights.

Before Using the Handset

Names and functions of parts

Names of parts of F884i and main functions assigned to buttons are explained below.
● In the explanation of operations, the buttons described here are represented by graphical symbols.
① **Earpiece**

Other party's voice is heard from here.

② **Light sensor**

Use to adjust automatically the brightness of the display.
* Blocking the light sensor may disable automatic adjustment of Display light correctly.

③ **Display→p.25**

④ **In Camera**

Use to shoot the image of yourself or to send the image of yourself over a videophone call.

⑤ 1 2 3 **One-touch dial button 1/2/3**

Register one-touch dial key.
Pressing this key for 1 sec. or more allows you to make a call to the registered party.

⑥ メニュー **Menu button**

Use to display menus or to perform the operation shown on the left of the guide line.
Press for 1 sec. or more to use the voice menu.

⑦ 戻る **Return button**

Use to display i-Channel list, switch i-αppli stand-by display and i-αppli activation, delete characters or return to previous display.
Press for 1 sec. or more to delete the display of newly arrived information.

⑧ [**Start/Character button**

Use to make/answer voice calls, switch ordinary and speakerphone calls or switch character entry modes.
Press for 1 sec. or more to play the voice message of Voice Mail.

⑨ 0-9 **Keypad dial**

Use to enter phone numbers or text, or to select menu items.
Press 0 for 1 sec. or more to enter "+".

⑩ ✳/**Public mode (Drive mode) key**

Use to enter "✳", "゛" or "゜".
Press for 1 sec. or more to start/cancel Public mode.

⑪ テレビ電話**Videophone/Lower case/ Navigation button**

Use to make a videophone call or to change upper/lower case.
Press for 1 sec. or more to check your current location.

⑫ **Microphone**

Send your voice from here.
* If you cover the microphone, your voice may not be heard clearly to the other party or the voice may not be recorded correctly.
* The microphone on the rear side is for reducing the noise, and it does not pick up your voice.

⑬ **External connecting jack**

Connect various optional devices such as FOMA AC Adapter 01/02.→p.41

⑭ **Infrared data port**

Use to send or receive data via infrared communication.

⑮ 電話帳**Phonebook button**

Use to display phonebook, to perform the operation shown on the right of the guide line or to switch the call by Speakerphone.
Press for 1 sec. or more to perform voice search of the phonebook.

⑯ **Multi-cursor button**
決定**Enter button**

Use to perform selected operation or to display the convenient tool menu. When there is an information to notify, display the contents of it.
Mail/Up button

Use to display mail menu screen, to move the cursor up and down, to adjust the volume (up) or to display the mail folder list after receiving new mails.
Press for 1 sec. or more to display mail creation screen.
Down button

Use to display i-mode menu, to move the cursor down or to adjust the volume (down).
Press for 1 sec. or more to display i-αppli list.
Received calls/Left button

Use to display received calls, to move the cursor left, to switch screen or to adjust the volume (down).
Redial/Right button

Use to display received calls, to move the cursor right, to switch screen or to adjust the volume (up).

⑰ **End/Power button**

Use to terminate calling/operating function, on-hold, or to cancel Secret mode.
Press for 2 sec. or more to turn ON/OFF the power of the FOMA terminal.

⑱ #**/Line-fee/Macro shooting/ Silent mode button**

Use to enter "#", to start a new line or to switch Macro mode while shooting.
Press for 1 sec. or more to start/cancel Silent mode.

⑲ **Camera/Camera switching/ Voice input button**

Use to activate photo taking screen, to switch out/in camera or voice input for mail creation.
Press for 1 sec. or more to display camera menu.

⑳ **Charging terminal**

㉑ **Out camera**

Use to shoot or send the image of yourself over a videophone call.

㉒ **Sub-display**→p.28

㉓ **FOMA Antenna**

The terminal has a FOMA built-in antenna. To talk in better conditions, do not cover the antenna with your hand.

㉔ **Strap opening**

㉕ **Speaker**

Ring alert, voice of the other party using the speakerphone or one-touch buzzer are heard from here.

㉖ **FeliCa mark**→p.290, p.369

Indicate that IC card is inserted.
* You can use Osaifu-Keitai by placing it over IC card reader or send/receive data by iC transmission. The IC card cannot be detached.

㉗ **Back cover**

㉘ **Volume button**

Use to turn on the Sub-display or to adjust the volumes, brightness for shooting or thickness of colors.

㉙ **microSD memory card slot**→p.359

㉚ **1Seg antenna**→p.321

㉛ **Voice reading button**

Use to turn on the light of the sub-display, to switch display, to set Voice slowing, Voice reading or to terminate Alarm clock or the voice for notification of the schedule.

㉜ **One-touch buzzer button**

Use to sound one-touch buzzer.→p.388

㉝ **Earphone/Microphone jack**

Connect Flat-plug Earphone/Microphone with Switch (optional).→p.398

Swinging display (YOKO-MOTION)

With FOMA terminal open, rotate the display 90 degrees to the right or left to display Horizontal display.
● If you rotate the display clockwise, 1Seg starts, and if you rotate the display counterclockwise, image shooting starts.
● Horizontal display can be used for such functions as 1Seg or camera.

When swung to the right
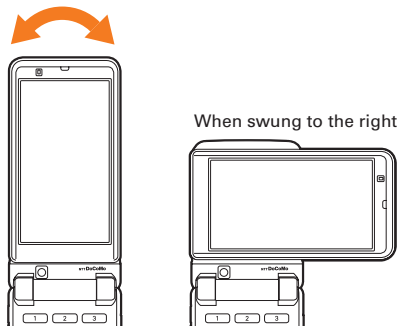

I N F O R M A T I O N

● Do not rotate the display with the FOMA terminal folded. The display and around the buttons may be scratched.
● When swinging with a function unavailable with Horizontal display, "画面を縦に戻してください (Return the display to vertical position)" appears.
